

## **Coartem®: reviewing the impact on the malaria landscape**

*Supplement Editor: Marcel Hommel*

### **Malaria Journal 2009; Vol 8: Supplement 1**

This supplement reviews the contribution made by AL as an ACT to the tremendous progress made in the control of malaria and establishes effective treatment as a cornerstone in the foundation of effective, quality patient care for infants, children and adults with malaria.

#### **Contents**

##### **S1 Malaria management – progress made and challenges still to face**

Bernhards R Ogutu

##### **S2 Ongoing challenges in the management of malaria**

Gilbert Kokwaro

##### **S3 Coartem®: the journey to the clinic**

Zulfiqarali G Premji

##### **S4 Understanding the pharmacokinetics of Coartem®**

Abdoulaye Djimde, Gilbert Lefèvre

##### **S5 The clinical efficacy of artemether/lumefantrine (Coartem®)**

Michael Makanga, Srivicha Krudsood

##### **S6 Safety profile of Coartem®: the evidence base**

Catherine Falade, Christine Manyando

##### **S7 Dispersible formulation of artemether/lumefantrine: specifically developed for infants and young children**

Salim Abdulla, Issaka Sagara

##### **S8 Impact of the large-scale deployment of artemether/lumefantrine on the malaria disease burden in Africa:**

##### **case studies of South Africa, Zambia and Ethiopia**

Karen I Barnes, Pascalina Chanda, Gebre Ab Barnabas
